

MPO-EPMOD Fully Automated MPO/MTP Polishing Line

An Advanced Intelligent Manufacturing Solution Tailored for High-Density Data Center Demands.

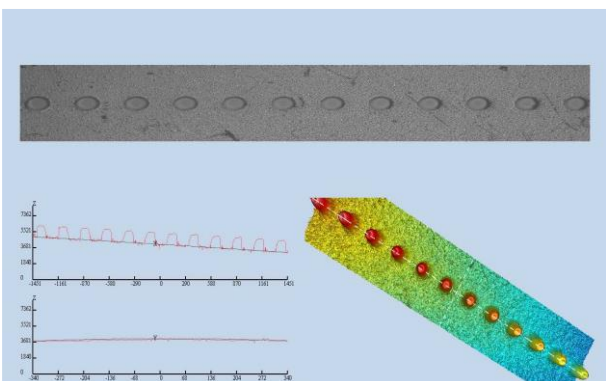

Processing 8000pcs of MPO/MTP Connectors Per Day.

Only need 2 operators.

Exceptional 3D Inspection Yield: >95%.

Broad Compatibility with All Major High-Speed Connectors.

Why Choose the MPO-EPMOD?

A Strategic Solution Amid Global Manufacturing Relocation Trends

As multinational enterprises increasingly relocate production to Southeast Asia, Eastern Europe, and other emerging markets, the MPO-EPMOD offers an optimal response to common challenges such as labor training inefficiencies and low operational productivity.

This solution enables enhanced cost control, elevated production efficiency, and consistent product quality across global operations.
